

The Friends of the Willamette Valley National Wildlife Refuge Complex invite you to join a Refuge Manager sharing restoration results at Baskett Slough NWR!

Restoration in Action at Baskett Slough National Wildlife Refuge

Sunday ~ Sept. 28, 2025

Time: 1:30 pm–2:30 pm

Location: Rich Guadagno Trailhead, Baskett Slough National Wildlife Refuge. Trail head parking area is located just off Coville Road in the middle of the Refuge.

Graham Evans-Peters, Refuge Manager, Baskett Slough National Wildlife Refuge

Hear the story of stream, wetland, and oak forest restoration at Baskett Slough NWR. Discover the processes and results of active land management that has attracted the support and attention of biologists and land managers from around the country. Bring your binoculars!

About the presenter:

Graham Evans-Peters has been part of the Willamette Valley National Wildlife Refuge Complex since 2013. He began work as a biologist in the Partner's Program. Since 2015 he has been the Refuge Manager at the Ankeny, and Baskett Slough NWRs for the U.S. Fish and Wildlife Service. As Refuge Manager he leads restoration and land management at the Refuge.
